- Small foot-print, superautomatic espresso, cappuccino and gourmet drinks' machine.
- Soluble, coffee and milk beverages and hot water are delivered by the same spout for a very rich and diversified menu.
- Equipped with the patented **Smart Boiler** technology, which significantly boosts steam and hot water capacity (approx. +30%).
- HiQB coffee group characterised by a variable chamber to ensure optimal extraction of any kind of beverage.
- **Cappuccinomatic** for one-step cappuccino and latte, equipped with the exclusive **Milk Precision System** (MilkPS), thanks to which you can: obtain a consistent in-cup milk dose; customize milk temperature for each selection (patent pending); prepare stratified beverages; place the fridge under the counter.
- Adjustable delivery spout (from 80 to 180 mm).
- Cups' guide.
